

"Haute couture" International representation for your boutique hotel or villa

We are the only global one stop shop boutique representation firm that connects the best agencies and speaks directly to the management and owners of a limited selection of properties worldwide.

Our business is based on trust and long term relationships with both, the properties and the travel consultants or concierge businesses.

Our proactivity, creativity, network and fine processes allow us to position your property in the luxury marketplace and generate incremental business for you with an exquisite image. Let me present you our 2022 sales plan, that is supported by a number of marketing efforts throughout the year.
