

ORIGINS & PHILOSOPHY

natural – authentic – respectful

Es Racó d'Artà is a living dream of two friends, Antoni Esteva and Jaume Danus and their families. The old 'finca' dating back to the 13th century has passed through different families over generations. They have all been closely connected to the land and dedicated to agriculture. In the 1960s when tourism got a foothold on the island, many of the old fincas were abandoned for new tourism projects, and this was also the case for Es Racó.

Unearthing the abandoned finca awakened a dream in Antoni and Jaume; a dream of returning it to its origins, restoring the finca and bringing back alive the long-lost Mallorca they knew from childhood; a Mallorca where nature, architecture, culture and gastronomy were deeply rooted and intertwined in everyday life.

Es Racó d'Artà is a reflection of exactly that; the genuine Mallorca, long before tourism was imprinted on the island. The finca is delicately designed by Antoni himself, who is an esteemed architect, and the construction was carried out by the talented builder himself, Jaume. Together the two friends have created an oasis of peace and tranquillity. The lead theme throughout is sustainability and respect for nature. All materials that Jaume and Antoni have used are completely natural and recycled. Energy is generated either through solar panels or by the geothermal system. Es Racó d'Artà is a place where nature prevails over humanity. It is a place that has transformed over time, whilst maintaining its essence.

LIFE IN ES RACÓ

connected – creative – peaceful – joyous

Nestled adjacent to the Llevant Natural Park in a serene valley, protected by the mountains and only a stone's throw from the picturesque village of Artà and the turquoise Mediterranean Sea, Es Racó d'Artà provides a peaceful nest for the exploration of our interconnectedness with nature, conscious living and holistic wellbeing.

The architecture of Es Racó embraces the natural elements of the land, and in doing so it invites each one of its visitors to connect deeply within; within our own natural landscape of feelings, sensations and emotions. Offering a variety of different experiences, guided by accomplished practitioners, Es Racó d'Artà combines natural beauty and unspoiled nature with a palate of sights, sounds, tastes, aromas and textures, inviting guests to connect through all their senses while embodying the healing experience of being natural.

Life in Es Racó is informal and relaxed with a heart-felt approach to everything we do. We give space to authenticity rather than pretence, and we seek to understand rather than to judge. Connecting with nature allows us to feel the elements, which show us ways of finding peace, healing, and inspiration within.

Through mindful living we invite you to sense the connection between the buildings protecting us, nature surrounding us, and our patterns of thought, speech, and action. We invite you to explore and engage

ES RACÓ D'ARTÀ

in our daily practices and workshops to deepen your presence, awareness, harmony, and happiness. We encourage you to engage our living spaces as vessels for awakening and presencing what is.

Es Racó welcomes everyone with interest and curiosity in understanding the nature of self and society. Come to explore, experience, discover, feel and express through art, movement, silence, meditation, reflection and rich conversations. We welcome you to join our community devoted to cultivating the human potential that exists within all of us. We invite you to rest your mind, open your heart, nurture your body and let spirit guide you. Allow yourself to exhale deeply, connect with the power and wonder within, and simply explore what is in the present moment.

FINDING YOUR PATH

explore the mystery of being human – the path of self-discovery - unlocking human potential - discovering your soul purpose – transforming your life

Authenticity is the guiding principle behind every offering and experience at Es Racó. More than just give back some of what contemporary life seems to take away; we would like to introduce a different perspective, a different way of being that may help to reconnect with the healer and visionary we all have within. Our wish is for you to find your path of self-discovery and from there explore your fullest potential.

An invitation to being in the present moment, to discover what really is; what is authentic and what is real. Nature is an ever-present part of the experience, and we invite you to listen to her, let her symphony of silence nourish, nurture and guide you. Let your journey be genuine, sincere and playful. Let life itself astonish and enrich you. Life is not a problem to be solved, but a mystery to be lived. Until we find ourselves, we will always be someone else. Don't be a copy - discover yourself and live your soul purpose.

We believe that when the individual change so does the world because the world is made of individuals. As human beings we have the power within to shift the paradigm from stress and survival to health and vitality. The key to a buoyant and fulfilling life resides within all of us. To unlock human potential and to be free does not come from changing or fixing the world, but from seeing the world for what it is and starting to heal ourselves in the midst of it. We wish for you a life enriching experience here at Es Racó.

THE LAND AND HER OFFERING

interconnectedness – harmonious – organic

The finca stretches over 185 hectare of natural land including beautiful mountains and forests of oak trees, wild olive trees, carob, pines and the odd cypress. The farmed land is home to our 14-hectare

ES RACÓ D'ARTÀ

ecological vineyard, some 1200 olive trees, 200 different fruit trees, a field of indigenous xeixa, our 2000 m2 organic vegetable garden and the aromatic herbal garden. We produce our own olive oil and organic xeixa flour. Adding to that we also engage in beekeeping, which means you will have fresh honey for breakfast.

It goes without saying that everything is ecological, we do not apply anything to the land which did not come out of her, our farm is natural and ecological. We believe in cycles and balance of giving and receiving and therefore we have a recycling plan that helps us give back to the earth part of what it gives us.

FROM LAND TO TABLE

healthy – balanced – seasonal – generous

We feel love and respect for our land and we express it in many ways, one way being through the food we serve. Our dishes are full of love and tradition to nourish us, move us and give us balance. Our gastronomy is seasonal and based on the produce from our garden as well as from local organic produce available from neighbouring fincas on the island. Here at Es Racó sitting down for a meal is a joyous moment to celebrate our interconnectedness and appreciate the colourful palate the land provides us with.

FROM THE WORLD TO ES RACÓ

slowing down – being rather than doing – feeling - connecting

Es Racó d'Arta is not a hotel, but a destination for transformation. A place to be inspired by genuine Mallorquin life. A place to allow for the real and authentic to shine through. Visiting Es Racó is not a tale about 'checking out'. It is about 'checking in', with self and with others; leaning in, deepen, returning to the body, to our senses, to our humanness, fully embodying life here on earth.

RESTFUL SLEEP

deep – restorative – rewiring
